

MT611

Quick Use Guide

Before using this device, please read this guide carefully.

1. Product Appearance

2. Product Specifications

Battery	500mAh disposable battery
Connectivity	Bluetooth 5.0
IP rating	IP66
Operating temperature	-20 to 60°C
Dimensions	Φ17mm×46mm
Weight	13g

3. LED

Status	Meaning
Solid on for 3s	Power On
Fast blink [(0.2s-0.2s (on-off))]	Power Off

4. Instructions for Use

4.1 Powering the device on and off

Powering on: Press and hold the power button for 3 seconds. The LED indicator will light up for 3 seconds to confirm that the device is powered on.

Powering off: Press and hold the power button for 3 seconds. The LED indicator will blink rapidly for 3 seconds to confirm that the device has been powered off.

4.2 Installation

Step 1: After removing the handlebar grip, insert MT611 into the handlebar.

Step 2: Install the handlebar grip.

NOTICE: When the internal diameter of the handlebar is greater than 20mm, a spacer must be added to prevent the MT611 from sliding too far into the handlebar, which could affect antenna performance. After adjusting the device to the appropriate position, reinstall the cover.

Step 1: Attach the widened gasket to the MT611.

Step 2: After removing the handlebar grip, insert the MT611 into the handlebar.

Step 3: Reinstall the handlebar grip.

Gasket size:

4.3 device management

You can download the device management app **maxTRACK Pro** from Google Play Store, or the App Store

or manage it on **gps.maxtrack.eu**

Login: last 7 digits of IMEI

Default password: max12345

Note: Remember to change password

5. Important reminders

- Battery life: The battery life varies based on individual usage habits.
- Location delay: Since the device uses a crowdsourced network, there may be a delay in positioning. If the management platform or app shows no data, you can wait for half an hour and refresh the location information. To improve positioning, try to use the device in areas with more mobile phones.
- Disassembly: Do not disassemble the device. Improper handling by non-professionals may cause damage.
- Safety: The product may present a choking hazard to small children and animals. Battery life: The battery life varies based on individual usage habits.

6. Regulatory Safety Information

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
